**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Special Use Permit for a hotel with a waiver to allow a distance separation of 80 feet from a residential use where 330 feet is the minimum required on 1.83 acres at the southwest corner of Tenaya Way and Sky Pointe Drive.

The proposed hotel is not consistent with the Town Center Development Standards because it is located approximately 80 feet from single family residential where a separation of 330 feet is required, and because a height of four stories is proposed where the Town Center Standards limit the height of a building on this site to two stories.

The proposed development is not compatible with Title 19 as only 74 spaces are provided where 87 spaces are required.

**BACKGROUND INFORMATION**

<b><i>Related Relevant City Actions by P&amp;D, Fire, Bldg., etc.</i></b>	
12/07/98	The City Council approved a rezoning (Z-76-98) of this site to TC (Towncenter) as part of a larger overall request.
02/22/07	The Planning Commission recommended approval of companion items VAR-19098, VAR-19447 and SDR-19097 concurrently with this application.  The Planning Commission voted 4-1/sd-1/rt to recommend APPROVAL (PC Agenda Item #31/ar).
<b><i>Pre-Application Meeting</i></b>	
12/12/06	The applicant was informed that this proposal would require a waiver of the Towncenter standard which requires a minimum 330 foot separation between a hotel and any detached single-family dwelling.
<b><i>Neighborhood Meeting</i></b>	
02/12/07	A neighborhood meeting was held at the Cimarron Rose Community Center, located at 5591 North Cimarron Road.

Loading Spaces			1 space		1 space		Y
Percent Deviation					15 %		

The parking shortage will be considered concurrently as related Variance VAR-19098. Because there is no hardship associated with this variance, staff is recommending denial.

## ANALYSIS

This site is currently undeveloped. The applicant proposes to develop a four story, 87 room hotel in the south portion of the site. Per the Zoning Code, a hotel of this size requires 87 parking spaces. A total of 74 spaces are provided in a parking lot located north of the hotel. The applicant has submitted a variance (VAR-19098) to address this deficiency. Staff finds there is no hardship associated with the site and is unable to support this variance.

Access to Sky Pointe Drive will be provided by two existing driveways. Landscape buffers that comply with Towncenter standards and include Rio Grande Ash, Chitalpa and assorted five gallon shrubs are provided along the appropriate property lines. Planter islands with 24 inch box Shoestring Acacia are shown within the parking lot. The elevations depict a plaster exterior with a decorative stone veneer accent. A maximum overall building height of 68 feet three inches is shown.

The Special Use Permit conditions for a hotel in the TC-SC (Towncenter-Service Commercial) require a minimum height of three stories. The development standards of the TC-SC district require structures that exceed two stories in height to be located on a parcel that is larger than 20 acres in size, and require the building to be set back at least 50 feet from all property lines. This application meets neither of these criteria and staff recommends denial.

## FINDINGS

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **“The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.”**

The proposed hotel is not consistent with the Town Center Development Standards because it is located approximately 80 feet from single family residential where a separation of 330 feet is required, and because a height of four stories is proposed where the Town Center Standards limit the height of a building on this site to two stories.

2. **“The subject site is physically suitable for the type and intensity of land use proposed.”**

The development standards of the TC-SC district require structures that exceed two stories in height to be located on a parcel that is larger than 20 acres in size, and require the building to be set back at least 50 feet from all property lines. Because this application meets neither of these criteria staff finds this use is too intense for this site.

3. **“Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.”**

The proposed use will not adversely impact streets in the vicinity of this site.

4. **“Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.”**

The proposed development will be subject to regular inspections for permitting and licensing and will therefore, not compromise the public health, safety, and welfare.
